Professional Summary

Aspiring DevOps Engineer with 1+ years of experience in production application development. Strong foundation in Git, Linux, REST APIs, and real-time systems (MQTT). Hands-on exposure to CI/CD concepts, Docker, and Kubernetes, with ongoing learning in Cloud technologies. Committed to building reliable, automated, and scalable deployment systems.

Core Competencies

- **CI/CD & GitOps:** GitHub Actions, Jenkins, Argo CD, Helm, Kustomize, Azure Devops
- **Containers & Orchestration:** Docker, Kubernetes
- **Monitoring & Logging:** Prometheus, Grafana, ELK Stack
- **Scripting & Automation:** Python, Bash
- **Cloud:** AWS
- **IaC:** Ansible
- **Version Control:** GitHub
- **Security:** SonarQube
- **Artifacts:** JFrog, Nexus
- **Databases:** PostgreSQL, MySQL

Professional Experience

Aspiring Devops Engineer | Brototype, Calicut, Kerala

May2025 – Present

- Undergoing intensive hands-on training in DevOps tools and practices.
- Implementing CI/CD pipelines using Jenkins, Azure DevOps, and GitHub Actions.
- Practicing containerization using Docker and deploying to Kubernetes clusters.
- Implementing GitOps workflows using Argo CD.
- Working on enterprise CI/CD pipelines using Maven, SonarQube, and Artifactory.
- Gaining practical experience in Linux fundamentals, Git workflows, and automation practices.
- Building real-world deployment strategies including Blue-Green and Canary releases.

Software Developer | ChargeMOD, Trivandrum, Kerala

Jan2024 – March 2025

- Developed and implemented a robust wallet system integrated with Razorpay ensuring seamless transaction handling, including success and failure scenarios.
- Integrated an in-app notification system to deliver offers and critical emergency updates, enhancing user experience for over 100,000 users accessing EV charging services.
- Implemented the MQTT protocol for real-time communication in electric vehicle chargers.

Flutter Developer Intern | Luminar Techno Lab, Kochi, Kerala

May 2023 – Sep 2023

- Contributed to mobile app development using Flutter, ensuring user-friendly experiences.
 - Utilized Git for version control and managed projects efficiently.
 - Enhanced app performance by implementing the best practices and troubleshooting issues.
-

Projects

ChargeMOD, EVOK, WORKLINE APPS

- Implemented MVVM architecture with Provider for efficient state management.
- Enhanced app functionality by implementing QR code scanning with the Mobile Scanner
- Integrated REST APIs to enable seamless data handling and improve user interactions.

Deployment Strategies using ArgoCD (Blue-Green & Canary)

[Git Link](#)

- Implemented Blue-Green deployment strategy to enable zero-downtime releases.
- Configured Canary releases to gradually shift traffic and reduce production risk during updates.
- Integrated Argo CD to implement GitOps based on continuous delivery workflows.
- Automated rollback mechanisms to ensure quick recovery in case of deployment failures.

Enterprise CI/CD Pipeline with Maven, Jenkins & Kubernetes

[Git Link](#)

- Implemented CI/CD pipelines in Jenkins for build and deployment automation.
- Configured SonarQube to enforce code quality gates and maintain code standards.
- Managed secure artifact storage and versioning using JFrog Artifactory.
- Deployed application to Kubernetes cluster with automated rollout process.

Azure DevOps CI/CD Pipeline for MERN Application

[Git Link](#)

- Configured Azure Repos for source control and branch management.
- Integrated Azure Boards for task tracking and work item management.
- Integrated SonarCloud for automated code quality analysis and quality gate enforcement.

GitHub Actions CI/CD Workflow for JavaScript Application

[Git Link](#)

- Designed and configured GitHub Actions workflows for automated build and test processes.
 - Configured workflow triggers based on pull requests and branch merges.
 - Implemented Docker containerization and automated image build on code commits.
 - Ensured continuous delivery with minimal manual intervention.
-

Education

- BSC Computer Science (2020 - 2023) Lement College of Advanced Studies, Pattambi
- Higher Secondary in Computer Science & IT (2018 - 2020) GVHSS Desamangalam
